

Midterm Reflection on Internship Experience

Name:

Internship Location:

Internship Supervisor:

Please answer the following questions thoughtfully and honestly. I will keep your responses confidential; however, after speaking (or e-mailing) with you, I will contact your supervisor to talk generally about how the internship is going.

- 1) What have been the most worthwhile experiences/opportunities you have had in your internship so far?

- 2) What have been the least worthwhile jobs/projects you have done so far?

- 3) Is the internship meeting your expectations so far? If so, why? If not, why not?

- 4) Are there opportunities you have not yet had in your internship that you'd like to have before the semester is over? In other words, what are your goals for the second half of your internship? What do you hope to learn or accomplish?

- 5) Please make additional comments below. Are there any difficulties I should know about? Is anything interfering with your internship experience? Or are there additional successes you'd like to mention here?
